Election/Restriction

1. This application contains claims directed to the following patentably distinct species of the claimed invention:

Species I: Chart of Accounts interface component (Fig. 4, #160: Described in detail in Figs. 5-9; Page 15, line 22 through Page 19, line 23)

Species II: Methods interface component (Fig. 4, #162: Described in detail in Figs. 10-11D; Page 19, line 25 through Page 23, line 27)

Species III: Calendar interface component (Fig. 4, #164: Described in detail in Figs. 12-17; Page 23, line 29 through Page 31, line 23)

Species IV: Profile interface component (Fig. 4, #166: Described in detail in Figs. 18-20; Page 31, line 25 through Page 35, line 22)

Species V: Key Results Area interface component (Fig. 4, #168: Described in detail in Fig. 21; Page 35, line 24 through Page 38, line 28)

Species VI: Action Plan interface component (Fig. 4, #170: Described in detail in Figs. 22-23; Page 38, line 30 through Page 42, line 22)

Species VII: Work Bench interface component (Fig. 4, #172: Described in detail in Figs. 24-25C; Page 42, line 24 through Page 47, line 27)

Species VIII: Report Generator interface component (Fig. 4, #174)

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

2. A telephone call was not attempted because the requirement for restriction is complex. See MPEP § 812.01.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
